### Reasons for Allowance

Claims 14-16 and 19-23 are allowable.

1. The following is an examiner's statement of reasons for allowance:

- the rejection of claims 13, 17, and 18 under 35 U.S.C. 112, second paragraphs, has been withdrawn due to the cancellation of the claims in the amendment.
- the close references for the current invention are Gallagher (WO 97/49652) and Marathe et al (GB 2041916 A).

Gallagher discloses a process of producing common reaction products resulted from depolymerization of polyesters ( e.g., polypropylene terephthalate) such as dimethyl terphthalate, terephthalic acid, 1,3-propanediol, and etc.

Marathe et al teaches a process of recovering dimethyl terephthalate from poly(ethylene terephthalate) waste in a methanolysis reaction using methanol in the presence of zinc acetate and sodium carbonate.

However, the instant invention differs from the prior art in that the claimed intermediate bis(3-hydroxypropyl) terephthalate is not disclosed during the prior processes; the presence of the claimed bis(3-hydroxypropyl) terephthalate compound is required to produce the 1,3-propanediol compound and the dimethyl terephthalate unlike the prior art processes.

Therefore, applicants' claimed subject matter would not have been obvious to the person with an ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the communication after allowance such as sending all post-allowance correspondence should be directed to "Box Issue Fee" or faxed directly to PUBS at 703-305-8755. This will expedite the process of these papers.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
